

What is the TotalHealth wellness program?

Your overall health is connected to your oral health. **That is why Delta Dental of Washington offers the TotalHealth wellness program** (additional diagnosis specific benefit), providing increased dental benefits for members with qualifying health conditions.

How it works

If you are diagnosed as having one or more qualifying medical conditions you are eligible to receive additional cleaning benefits. Confirmation of successful enrollment will be sent via email along with important information about the plan. Additionally, members will receive regular updates and educational materials via email to help them maximize their benefits and stay informed about their plan.

1

Log into your free MySmile member account.

2

Complete the TotalHealth wellness program form to report any qualifying conditions.

3

Schedule your next dentist appointment and get the most of the additional benefits.

Covered dental benefits*

- Additional cleanings
- Additional periodontal maintenance
- Additional scaling in the presence of generalized moderate or severe gingival inflammation

*Limitations

Periodontal maintenance procedures are covered only if a patient has completed active periodontal treatment.

Additional cleanings for pregnancy will be available in the current Benefit Period after you notify us of your pregnancy and for one Benefit Period thereafter.

For qualifying conditions besides pregnancy, additional cleanings are available in the current Benefit Period and for each Benefit Period thereafter, as long as you continue to have one or more qualifying medical conditions and have coverage with Delta Dental of Washington.

A maximum of up to four cleanings are allowed in a Benefit Period. Your additional benefits will be available to you 24 hours after form submission.

Do you have a qualifying condition?

Let us know through the **TotalHealth wellness program** to access additional dental benefits.

TotalHealth wellness program in action

Meet Sarah

Sarah was diagnosed with diabetes. In recent years the cost of visiting the dentist has prevented her from going in for cleanings. However, she learned about the TotalHealth wellness program through her employer. So she logged into her MySmile account and self-reported her diagnosis and qualified for additional periodontal maintenance.
